Hidden Struggles: Situating Neurodiversity in Post-Secondary Education

September 2019
The Conference Board of Canada

In this research, we look at the challenges neurodiversity poses for both post-secondary institutions and neurodiverse students. This study will be the first in Canada to explore how different types of institute approach inclusion for neurodiverse students.

Hidden Struggles: Situating Neurodiversity in Post-Secondary Education

📅 December 2024

👤 The Conference Board of Canada

In this research, we look at the challenges neurodiversity poses for both post-secondary institutions and neurodiverse students. This study will be the first in Canada to explore how different types of institute approach inclusion for neurodiverse students.

Inclusive Economy

The Future Skills Centre acknowledges that the Anishinaabe, Mississaugas and Haudenosaunee share a special relationship to the ‘Dish With One Spoon Territory,’ where our office is located, bound to share and protect the land. As a pan-Canadian initiative, FSC operates on the traditional territory of many Indigenous nations across Turtle Island, the name given to the North American continent by some Indigenous peoples. We are grateful for the opportunity to work in this territory and commit ourselves to learning about our shared history and doing our part towards reconciliation.
